ABOUT COMPANY

Homelec Korea is one of the most rapidly growing manufacturers / exporters in advanced personal healthcare devices the global region.

We specialize in high-tech products, and yet simplicity in use is what we are proud of.

It's a cordless & hassle-free personal healthcare gadget, specially designed for you. The gadget just maximizes your comfort and convenience level at anytime and anywhere.

With our expertise and technical know-how, our products are well received by consumers. We strive for excellence, and our success is built on one principle: customer satisfaction. With this in mind, our gadgets are customer-oriented, focusing on their needs, and they are all beyond expectations. This is how we have earned the trust of our customers.

Our first product item, was a success since it was available in the market in mid-November 2013. Now we have customers from Australia, the Middle East, South East Asian Countries and North America.

We feel the momentum will keep going, and therefore look forward to receiving the continued support of our customers in the time ahead of us.

OUR COMPANY

We have experienced overseas partners for your efficient business

Video, Certificate, Patent, FTA, Marketing works

We have large factory for your supply

We have experienced engineers for your Product Ideas

With more than 20 years of experience in product development, our professionally trained engineers work for our products.

HOMELEC ADVANTAGE

Homelec Cordless Massager is a portable massager free of cords, cables, and ultimately hassles.

With going cordless it simply minimizes the possibility for getting entangled in wires during massaging, stuck around nearby an electricity outlet, or tumbled down on an extension code. For one's lifestyle that prefers to keep things easy and convenient, Homelec Cordless Massager is the right way to go for.

What is so special about body elements cordless massager-There is no drop in massage strength compared to other electricity-powered ones in the market.

Body Elements massager is strong enough to nail through an inch-thick plywood.

What is more, it takes you only 2 hours to recharge the gadget to enjoy a good thirty-minute massage per day for a week.
